PLUG-IN REMOVABLE TORCH

RECHARGE THE BATTERIES for a few minutes the first time you use it.

In the case of a **BLACK-OUT** it turns on **AUTOMATICALLY** to maximum intensity with a cold light led. The product also has a **REMOVABLE TORCH** function.

Furthermore, click on the lens to activate the **COURTESY LIGHT** function (warm light).

When light is off, keep the lens pressed for a few seconds to **SWITCH FROM A WARM TO A COLD LIGHT** (and vice versa).

AUTOMATIC ON-OFF LIGHT

AUTOMATIC MODE

A warm light led will **AUTOMATICALLY** switch on and off depending on the light intensity in the room.

MANUAL MODE

Plug the product into the socket while keeping the lens pressed to use it as **COURTESY LIGHT**.

DIMMER FUNCTION

LIGHT INTENSITY can be adjusted by keeping the lens pressed.

USB ADAPTER

Plug the product into the socket to **RECHARGE YOUR MOBILE DEVICES**.
